

A Children's Oncology Group Protocol for Collecting and Banking Pediatric Brain Tumor Research Specimens (COG-ACNS02B3)

IRB# 2006-004

Principal Investigator: Joseph Torkildson, MD

Synopsis:

The goals of this study are:

1. To collect brain tumor tissue and a blood sample as biological specimens.
2. To provide a repository for long-term storage of pediatric brain tumor biological specimens.
3. To make these specimens available to qualified researchers to understand the biology of pediatric brain tumors.
